

Installation of LED Light Kit for AP 213

Important Note: Please read all instructions thoroughly before continuing with installation of kit.

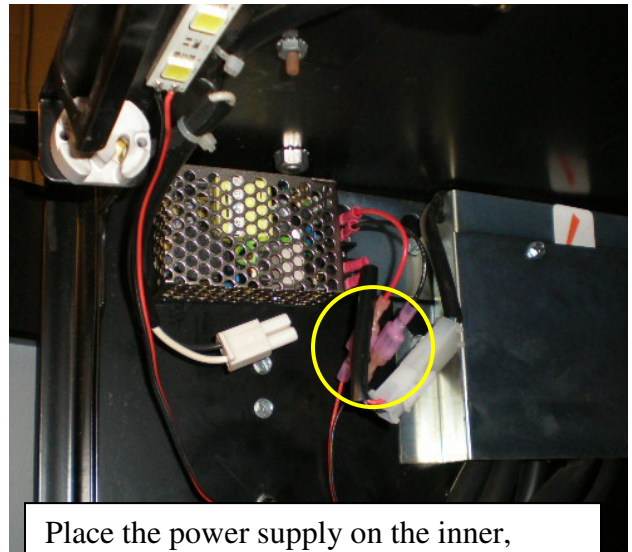

Part Number	Description	Qty/Kit
VE4812	18 LED LIGHT STRIP	1
VE4818	QUICK CONNECT 24V HARNESS	1
VE4841	POWER HARNESS 110V (AP213)	1
VE4810	POWER SUPPLY	1

Open up the machine and remove the fluorescent bulb from the holder, as seen in the above picture.

Unplug the 2 Pin Connector.

Place the power supply on the inner, upper, front left side of the vending machine. Plug the 2 pin female connector into the power supply (Yellow Circle).

Installation of LED Light Kit for AP 213

Place the 18 LED magnetic strip where fluorescent bulb used to be and attach wires to the power supply.
